## 4. Notification Rules

### On Order Creation

- Sent to all Admin and Super Admin users.
- Plus one recipient:
    - Client creator email, or
    - Selected associated email, or
    - Creator admin/super admin email if associated email is blank.

### On Order Completion

- Same recipient logic as order creation.

## 5. Order Status Values

- Pending
- Working
- QC1
- QC2
- Done
- Completed

## 6. Troubleshooting

- Cannot login: verify credentials or use forgot-password.
- Cannot update status: only Admin and Super Admin can do this.

- Missing work fields: Super Admin must enable them in Order Fields.
- Client cannot see all orders: clients only see their own orders.
